FUTURES

Index to Volume 14, 1982

No 1 February 1982
No 2 April 1982
No 3 June 1982
No 4 August 1982
No 5 October 1982
No 6 December 1982

Alternative space futures, Ian Miles and Michiel Schwarz, 14.5, 461–483
Amphibian's view of forecasting and models, Peter Roberts, 14.2, 129–135
Argument for more future-oriented planning—The (Futures Essay), Graham May, 14.4, 313–318
Arms race as a hypergame—The, P. G. Bennett and M. R. Dando, 14.4, 293–306
Battelle research projects (News), 14.4, 331–333
Center for Futures Research launches its futures network (News), 14.6, 575
Changing ways of life: costs, benefits, and strategies, Ian Miles and John Irvine, 14.1, 11–23
Decade of global modelling—A, John M. Richardson, 14.2, 136–145
Delphi technique and forecasting fringe benefits (Methodology), Grover H. Baldwin, 14.4, 319–322
Development of the informal economy, Rolf Heinze and Thomas Olk, 14.3, 189–204.
Discounting and intergenerational equity, I. M. Dobbs, 14.4, 307–312
Evolution of civilian space exploitation, John M. Logsdon, 14.5, 393–404
First quarter century of spaceflight, Marcia S. Smith, 14.5, 353–373
Forum Humanum project (News), 14.4, 330–331
Future practice of medicine, John Loraine, 14.3, 171–179
obal modelling for humanity, AurelioPeccei, 14.2, 91-94
Global modelling revisited, Jay W. Forrester, 14.2, 95–110
Humour in forecasting, 14.6, 573–574
Industrial robot technology (Dossier), Tom Husband, 14.4, 333–335
Industrialization of space, Ray A. Williamson, 14.5, 405–416
Institute for the Future's study of the UK 1978–95 (How we forecast), Andrew Lipinski and Denis Loveridge, 14.3, 205–238
Intra-Mediterrean trade relations in the 1980s, Alfred Tovias, 14.3, 180–188
Kettle interviews with: Michael McCracken (Informetrica Ltd), 14.1, 70–75; with Edouard Parker (X,A/Etudes Prospectives), 14.4, 326–330
Laws of constant time and trip rates, Geurt Hupkes, 14.1, 38–46
Manganese nodule bonanza (Retrospective), Luc Georghiou, Glyn Ford, and Hugh Cameron 14.6, 545–546.
Militarization of space, Gerald M. Steinberg, 14.5, 374–392
Modellers and politicians, Eduard Pestel, 14.2, 122–128
Multiple attributable scenarios, bounded probabilities, and nuclear theft (Methodology), Craig W. Kirkwood and Stephen Pollard, 14.6, 545–553
Myth of turbulence—The, S. N. Woodward, 14.4, 266–279
Next Great Empire—The (Insights from History), Peter Lewis, 14.1, 47–61
NSF studies on technology assessment, 14.1, 62–69
Pathways to peace, Alexander N. Christakis, 14.6, 533–544
Pricing structures for long-term international contracts, B. Nanus, S. Enzer, and R. Drobnick, 14.4, 280–292
Psychological pitfalls in forecasting, J. St. B. T. Evans, 14.4, 258–265
Quantifying the employment effects of micro-electronics, J. D. Whitley and R. A. Wilson, 14.6, 486–495
Resources for the Future (Research Centre Profile), 14.6, 570–573
Social innovation, J. I. Gershuny, 14.6, 496–516
Social research and government policy, Patricia Thomas, 14.1, 2–10
Space: battlefield of the future? Bhupendra Jasani, 14.5, 435–447
Space for whom? Caesar Voûte, 14.5, 448–460
Technology Policy Unit, UK (Research Centre Profile), Ernest Braun, 14.1, 75–77
Telecommunications and space, Peter Brunt and Alan I. Naylor, 14.5, 417–434
Warming of the climate (Dossier), Tom Wigley, 14.1, 77–79
What comes after the welfare state? James Robertson, 14.1, 24–37
Worldwide nuclear plant performance revisited, Steve Thomas, 14.6, 517–532

Semmel, Bernard, (ed), *Marxism and the Science of War*, Michael Brett-Crowther, 14.2, 151–154

Segal, Gerald, (ed), *The China Factor*, David Bridgeman–Sutton, 14.4, 340–341
Sharp, C., *The Economics of Time*, J. S. Metcalfe, 14.3, 247–248
Simon, Julian L., *The Ultimate Resource*, Peter Roberts, 14.2, 148–149
Systems Analysis Research Unit (UK), *A Simulation Model for UK Energy Demand*, Richard Westoby, 14.2, 162–163
Thompson, Leonard, and Andrew Prior, *South African Politics*, David Bridgeman-Sutton, 14.6, 566–567
Twiss, Brian, (ed), *Social Forecasting for Company Planning*, Trevor Williams, 14.6, 363–364
Vasconcelos, Raimundo, N. M., *Amazonia—Un Caso Perdidos*, Arthur F. Byrnes and Frank Meissner, 14.2, 149–151

Books—science fiction

All reviewed by Dennis Livingston

A. A. Attanasio, *Radix*, 14.2, 165–166
David Broderick, *The Dreaming Dragons: A Time Opera*, 14.1, 87–88
John Crowley, *Little Big*, 14.5, 484
Stuart Gordon, *Smile on the Void*, 14.6, 569–570
Julian May, *The Many Colored Land*, 14.3, 250–251
Hilbert Schenk, *At the Eye of the Ocean*, 14.1, 87–88
Patricia Wrightson, *The Ice is Coming*, and *The Dark Bright Water*, and *Journey beyond the Wind*, 14.4, 336–337

Conferences (sponsor, title, reporter)

EEC FAST programme *et al*, "The Transition to an Information Society", Manchester, UK, January 1982, Paul Ellis, 14.3, 239–241
International Impact Assessment Association, First annual conference, Washington DC, January 1982, Mihaela Y. smith, 14.3, 242–245
Society for International Development, "The Emerging Global Village", Baltimore, July 1982, Ian Miles, 14.6, 557–559
Sperry Univac seminar for the press, "The Next Ten Years", France, July 1982, William Page, 14.6, 560–561
UN, "New and Renewable Sources of Energy", Nairobi, August 1981, André van Dam, 14.1, 79–84
World Future Society, "Communications and the Future", Washington DC, July 1982, John Edmondson, 14.6, 556–557
World Futures Studies Federation, "The Future of Politics", Stockholm, June 1982, William Page, 14.6, 560–561
